**Subject:** RE: Agenda for May 15 Risk Assessors Meeting  
**Date:** Tuesday, May 14, 2013 12:16:50 PM

---

Since the risk assessor meeting is moved to next week, I thought the four of us could still get together Wednesday morning and talk about the VI EDD values since I think Katie needs some direction sooner rather than later. Shall we meet at 9 on Wednesday? Thanks!

**Subject:** Agenda for May 15 Risk Assessors Meeting  
All,

As a reminder we will have our next risk assessors meeting on May 15 from 8:30 to 10:00 in room 1836. Below is the proposed agenda. Please let me know if you have any additions.

1. **Delineation values in Puerto Rico, what should we be using?** (Ula/Chuck)
2. **Coordinating on Removals and Emergency Responses** (Chloe/Chuck)
  - Increasing the use of TSS risk assessment staff on ERs (would require training)
  - Providing greater consistency on how we characterize removal soil sites, particularly for lead (maybe develop a workgroup)
  - Providing more clarity on TCE, dioxin and vapor intrusion, differences between the RMLs and RSLs
3. **Technical Preferences Update** (Group)
  - Do you agree with sending the attached file to our contractors?
  - Developing internal consistency document – what topics should be included?
4. **VI values in EDD** (Katie)
  - New York State is finalizing the data fields they will require for their VI EDD submittals.  
Attached is an Excel file that shows them all. Please don't get bogged down with this. A lot of the information is extraneous. But please think about what fields it would be important for us to have in our database, keeping in mind we want to be consistent with DEC to the greatest extent possible.
  - red = required field, blue = strongly recommended
5. **Meeting schedule, should they be monthly?** (Group)
6. **Tentative: VI in the RI** (Ula/Michael)
  - Present results of Michael and Ula's efforts

I'm also going to invite ATSDR since no one seemed to have any objections.  
Please let me know if you have any questions or concerns.

Thanks!

Chloe
